

# Bible Listening Project 1

MR. CANCINO'S BIBLE CLASS | 7<sup>th</sup> Grade

**Required:** Listen to an audio recording of the **entire Gospel of John** (25 points).

**Optional Extra Credit:** Listen also to the **entire Gospel of Matthew** (5 extra credit points!).

The assignment sheet shows the due dates. After completing each part, sign the statements below and have your parent/guardian sign their part. Both **signatures are required** for each part.

Each Gospel takes about two hours to complete. There are many audio Bibles online, on apps, on CD, etc. Follow these guidelines:

- Use a Bible version your parents approve of using.
- Feel free to use this for your personal Bible time.
- You may do the listening in parts; provided you complete the entire assignment.
- You may read along if you wish (but reading only is not sufficient).
- Play the audio Bible at a normal speed.
- You may do other activities while listening, provided these do not require concentration. For example, you may listen while jogging, cleaning, riding on a car, relaxing; but you may not do it while reading other stuff, doing homework, video gaming, talking, sleeping, snorkeling, bungee jumping, etc.

Listening to an audio Bible is like jumping on a treadmill. It keeps you moving at a steady pace, and

**Think about it!** The Bible is made for listening. Throughout history many believers have not been able to read. Many did their “Bible reading” by listening to someone else reading. This included people for whom the Bible was originally written.

Listening to Scripture will help you take a fresh look at its words, and it may help you get through it faster. This steady listening is an aid for seeing the themes and general context of Scripture. Perhaps this activity will be the beginning of a good habit.
